

**APPENDIX 2/ Figure 2:**

Mean QT interval change to baseline in ms versus ECG time points for dose group 1 (above graph) and dose group 2 (lower graph) for active drug (red line) and placebo (black line).

V2 = single dose segment (dose group 1 only)  
 V3 = multiple dose segment for eight days  
 D1 = Day 1  
 D8 = Day 8  
 P = Placebo  
 T = active treatment  
 G1 = dose group 1  
 G2 = dose group 2
