

APPENDIX 3/ Figure 3:

Mean QTcF interval change to baseline in ms versus ECG time points for dose group 1 (above graph) and dose group 2 (lower graph) for active drug (red line) and placebo (black line).

V2 = single dose segment (dose group 1 only)
 V3 = multiple dose segment for eight days
 D1 = Day 1
 D8 = Day 8
 P = Placebo
 T = active treatment
 G1 = dose group 1
 G2 = dose group 2
