Urgent Field Safety Notice, FSN

Product: Mobile patient bath lift TR9650

Manufacturer FSN document number: 2534

Dear customer,

According to our records, you have a TR9650 patient lift in your facilities.

The TR9650 mobile bath lift family has three different models, TR9650 Chairlift, TR9650 Stretcher lift and TR9650 Combi lift.

Part numbers:

0542000	TR9650 Chairlift
0542010	TR9650 Stretcher lift
0542020	TR9650 Combi lift

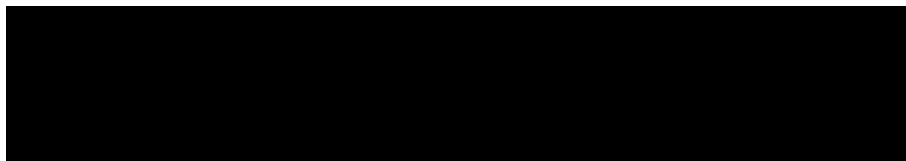

Serial numbers for affected TR9650 mobile bath lifts:

From 1203-20410 to and including 1501-22465.

Reason for the Field Safety Notice:

It has come to our attention that one of the gears inside the motor gear box of the TR9650 mobile bath lift family, produced between 2012 and March 2015, have been produced in a material that might be worn out and brake after some years of use. If the gear breaks during use with a patient on the lift the seat will sink down.

Designed for People*

Action required by user:

1. Check all the TR9650 lifts in your facilities to see if they have a serial number from 1203-20410 to and including 1501-22465.
2. If you have a serial number **from 1203-20410 to and including 1501-22465** TR Equipment AB recommends that the motor shall be replaced as soon as possible. Part number for the motor is 2419640.
3. Contact TR Equipment AB or a TR Equipment representative to order a replacement motor to a discounted price

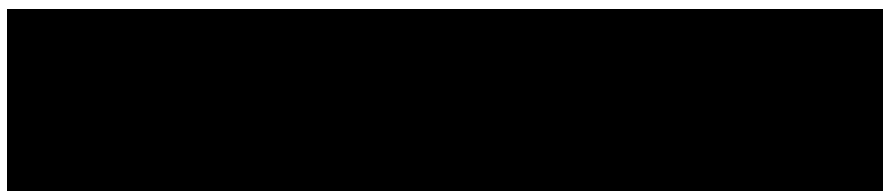

Manufacturer action:

1. A service instruction how to replace the motor will be available on the TR Equipment homepage from 2020-05-01:
<https://www.trequipment.com/products/tr-9650>

Distribution/transmission of this Field Safety Notice:

This Urgent Field Safety Notice, FSN must be distributed to those who need to be aware within your organization or to any other organization where the TR9650 Mobile patient bath lifts, with specified serial numbers have been distributed from your facility.

We apologize the inconvenience this Urgent Field Safety Notice may cause.
