2010-07-07**PRODCUT RECALL****ABC SCREW DRIVER F/SELFLOCKING SCREWS****Art. No. FJ910R with UNICOS coding -C100A bis -C100U**

Dear Sir or Madam,

following to our documentation your hospital has received one or more ABC screw drivers with article no. FJ910R and above mentioned coding.

Much to our regret we have to inform you that we have received a report about a breakage of the carbide bit.

Our analysis has shown that the delivered ABC screw driver with above mentioned article no. and code no. do not have the requested stability of torsion.

In the worst case the carbide bit can break during surgery when inserting the screws with high effort.

To avoid any patient risk, we therefore decided to precautionary recall the affected screw divers. **Please do not use the FJ910R with above mentioned coding anymore.**

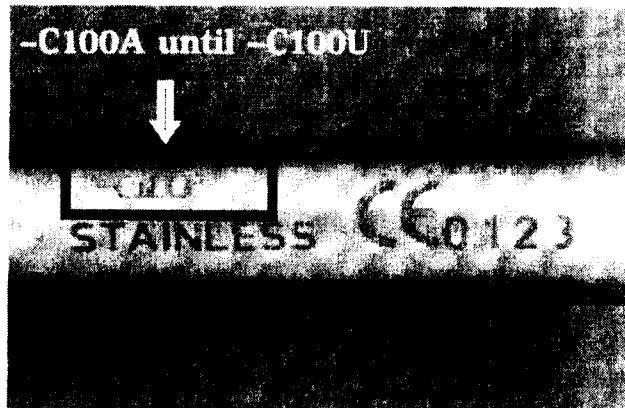

As exclusively one production lot is affected by this deviation and the screw drivers are marked with a special coding, the FJ910R concerned can be easily identified with the mentioned coding ( -C100A until - C100U ).

Seite 2 zum Schreiben vom 2010-07-07

You can find the coding on the left side of the CE marking (see picture).

Our sales representative will contact you to arrange the exchange of the ABC screw drivers free of charge.

For any questions please feel free to contact B. Braun Aesculap:

**Herr Franz-Josef Kupferschmid ☎ 07461-95 1180**  
**Product Manager Spine Surgery**

We appreciate your immediate attention and apologize for any inconvenience this may cause you or your staff. Please be assured that we will make all necessary efforts to eliminate such problem in the future.

Yours sincerely

Aesculap AG
