Urgent Field Safety Notice

Polysorb™ Braided and Biosyn™ monofilament Absorbable Suture

Recall

December 2019

Medtronic reference: FA899

Dear Healthcare Professional:

The purpose of this letter is to advise you that Medtronic is voluntarily recalling specific item codes and production lots of

Polysorb™ braided and Biosyn™ monofilament absorbable sutures.

Issue Description:

This voluntary recall is being conducted due to the potential for packaging integrity issues impacting the humidity or sterility barrier of specific production lots of these absorbable sutures. These conditions may result in premature degradation of the suture material or compromise the product's sterile condition. The use of products with an incomplete seal of the humidity barrier may increase the potential for the suture to break. The use of products with a compromised sterile barrier may result in a potentially increased risk for infection. There have been no reports of patient injury associated with these issues.

This voluntary recall affects only the item codes and lot numbers listed on Attachment A of this notification.

Required Actions:

- 1. Please immediately guarantine and discontinue use of the affected item code and lot listed on Attachment A.
- 2. Please return affected product as indicated below. All unused products from the affected item codes and lots must be returned.
- 3. If you have distributed Polysorb™ braided or Biosyn™ monofilament absorbable sutures listed on Attachment A, please promptly forward the information from this letter to those recipients.
- 4. Complete the Return Verification Form even if you do not have inventory.

This notice needs to be passed on all those who need to be aware within your organization or to any organization where the potentially affected devices have been transferred. Please keep a copy of this letter in your file.
